The Solar Festival is an event dedicated to exploring and celebrating solar energy, hosted at ZAZ BELLERIVE. Participants from various fields come together to share their insights, experiences, and enthusiasm for the sun. From sunrise to sunset, the festival features a range of activities, including lectures, experiments, workshops, installations, and collective feasts. We follow the sun, interact with its radiation, and embrace its power. At dawn, we gather to welcome and celebrate its life-giving light, and at dusk, we part ways, carrying its warmth within us.
